Luxriot Evo

An open platform for video and security management

Q2 2020

Introduction

The world has changed, so here is the “new normal”:

- the market is saturated with all the same brands
- trying to sell to the same people
- at the same price…

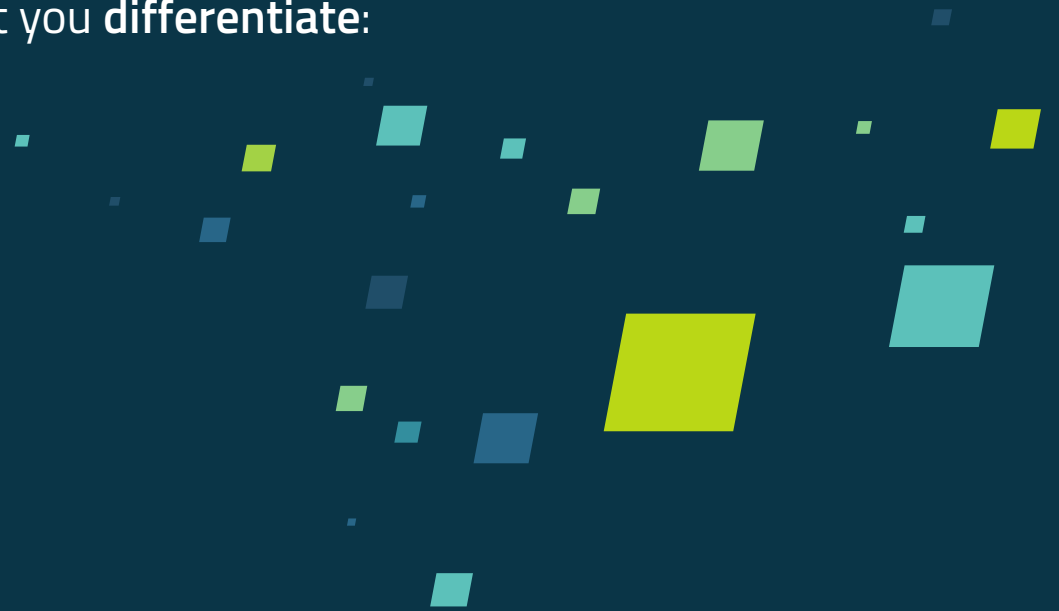
Now is a great time to think out of the box

LUXRIOT EVO

Think out of the box

Luxriot Evo offers what will let you **differentiate**:

- Ready-to-go platform
- Comfortable to use
- Proactive
- Complete solution
- Customizable capabilities



LUXRIOT EVO

Quality exceeds the budget

Different end-user businesses criteria:

- All comes down to costs...
- Showcase of technology...
- **Balanced** approach - bet most of investment

For those who want the video management system comfortable to operate, capable and able to work as intended without creating a leak in their budget.

LUXRIOT EVO

- **Robust** ✓
- **Ultimately efficient** ✓
- **Reliable tool** ✓
- **For real-life everyday use** ✓

LUXRIOT EVO

In brief

- Feature-rich yet simple software package
- All the capabilities are included into a single installation bundle

Luxriot Evo

Complimentary Edition

free 1-9 channels

*up to 16 free channels for Luxriot Premium Partners

Luxriot Evo S

24, 48,72, 96 and Unlimited channels

Luxriot Evo Global

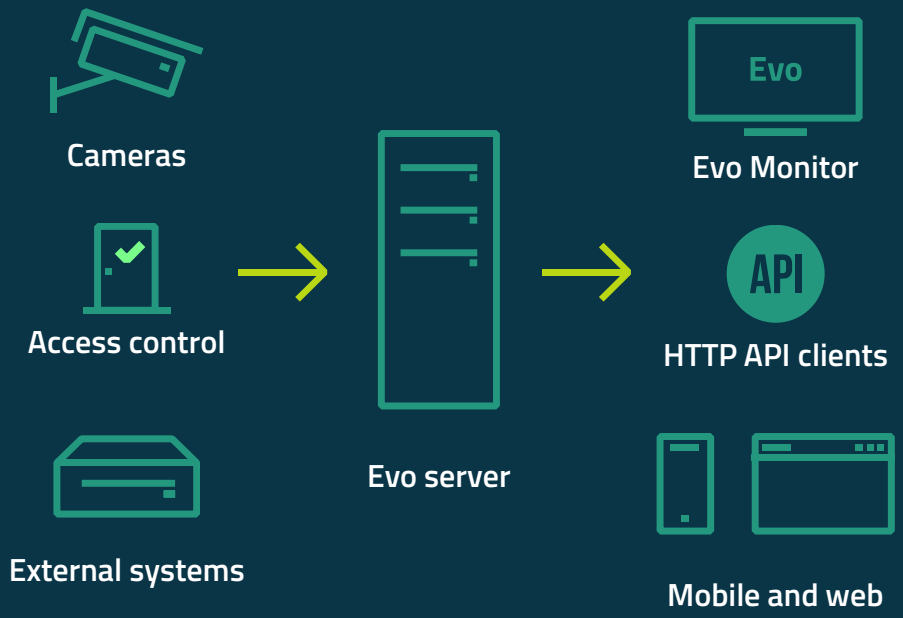
Global licensing for scalable projects with unlimited cameras

Optimized Core Performance + Easy Licensing + Extensive Device Support

LUXRIOT EVO

Architecture

Single platform
to deploy **unified**
interactions.



LUXRIOT EVO

Expertise for comprehensive solutions

Platform for comprehensive solutions

+ advanced capabilities + ease of use
+ modern & fresh user experience +
highly customizable + **intuitive operator interface**

Features that are practically useful + convenient to operate

Fully equipped for
+ zero-to-no-time system reaction
+ no system downtime

Luxriot Global Footprint

We worked with most well regarded and leading companies from different verticals worldwide and helped them to improve their security operations

US Border Patrol, USA

US AirForce, USA

Pilot travel centers (former FlyingJ), USA

PSEG (nuclear power plants), USA

Firestone/Bridgestone, USA

Phoenix City-wide Surveillance, AZ, USA

Heathrow Airport (Terminals 1,3,4 & 5), UK

Stansted Airport, UK

Glasgow Airport, UK

Tesco, UK

Dixons, UK

Skoda Plants, Czech Rep.

Baku City-wide Surveillance, Azerbaijan

Ankara City-wide Surveillance, Turkey

Turkish border with Syria, Turkey

Constanza Port, Romania

CERN, Switzerland

Korean DMZ by US Military

University of Hawaii, USA

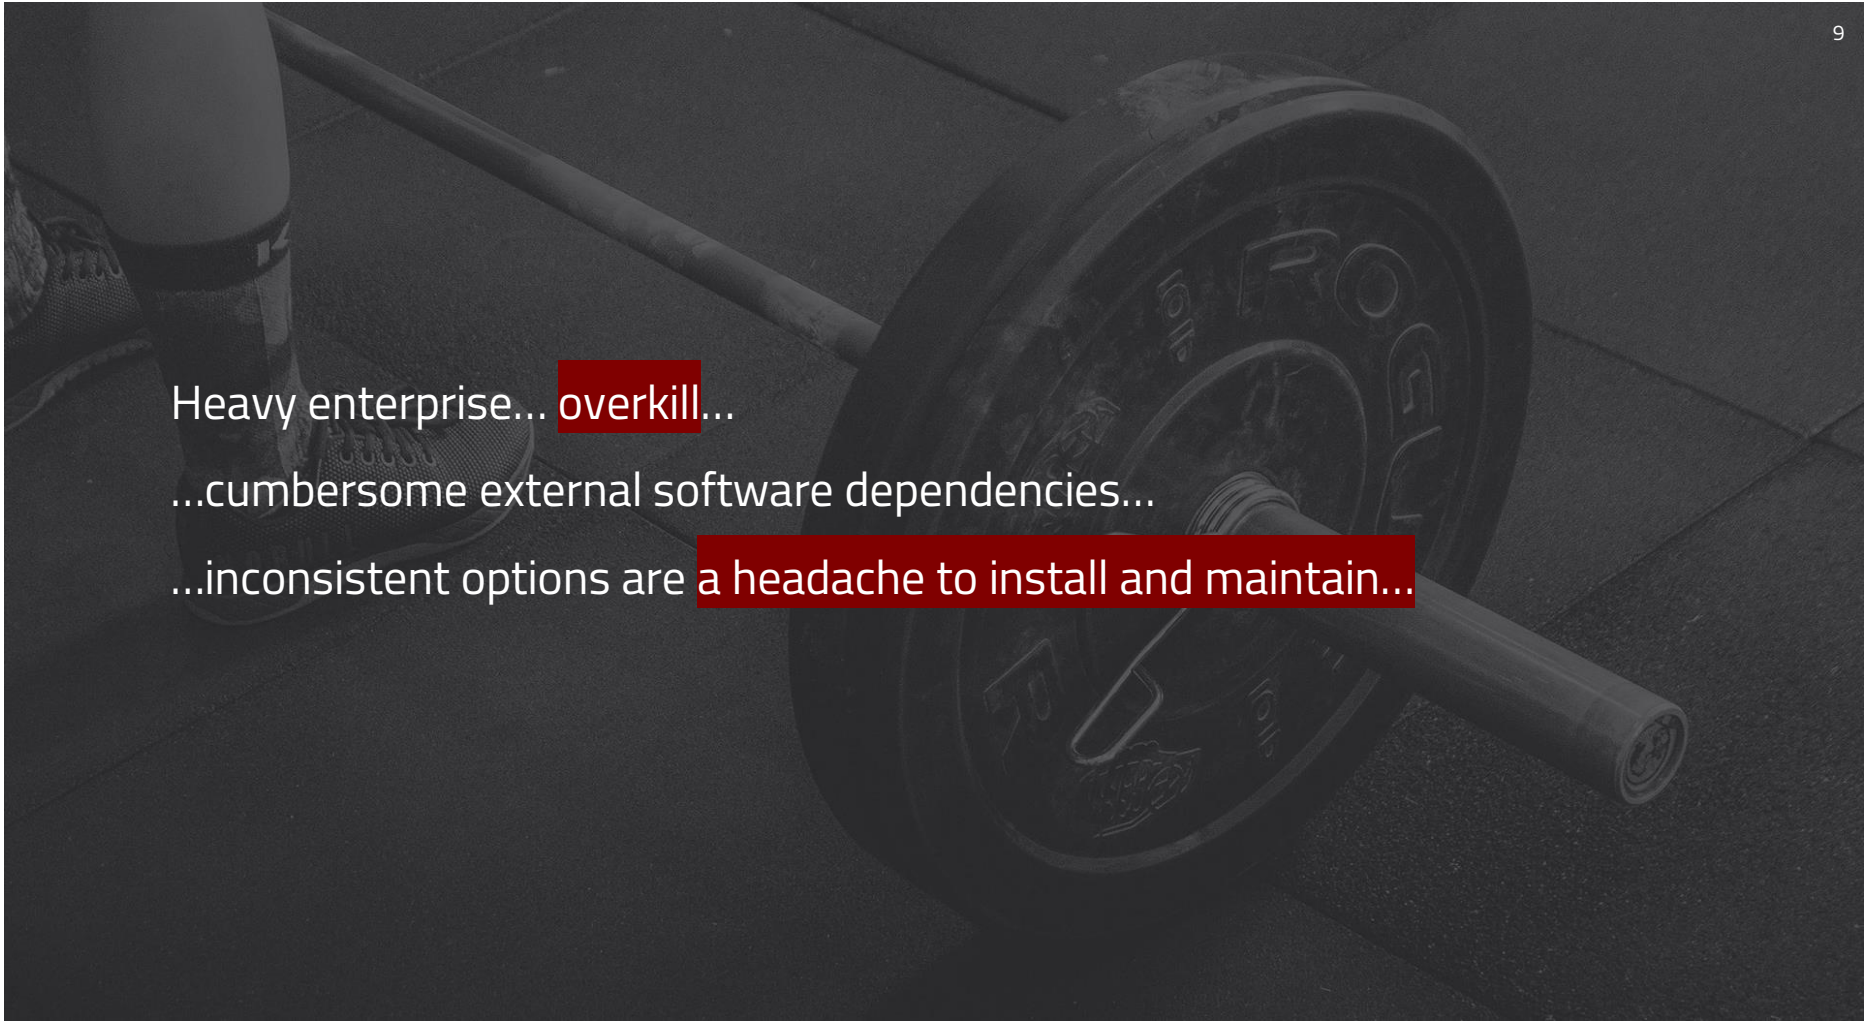
National Park Service, USA

Oklahoma state schools, USA

Bob Hope Airport, CA, USA

Good Will Industries, USA

Georgia Tech, USA



Heavy enterprise… overkill…

…cumbersome external software dependencies…

…inconsistent options are a headache to install and maintain…

LUXRIOT EVO

Easy to install and maintain

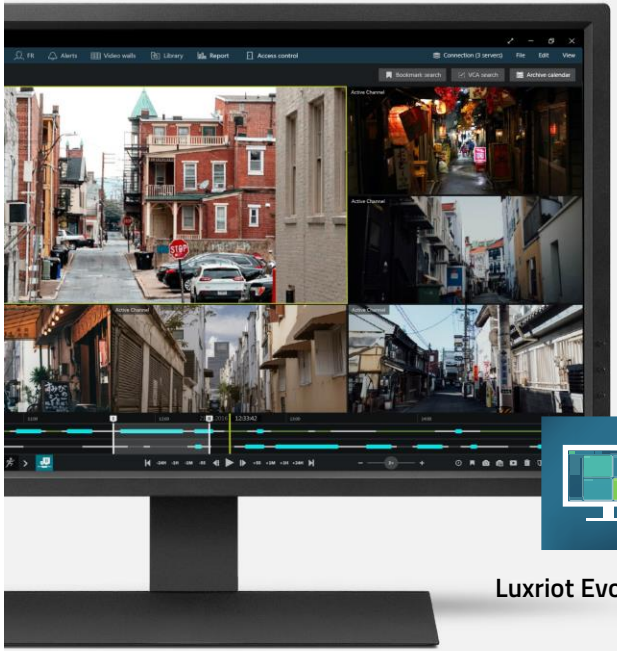
Luxriot Evo is a lightweight and quick-to-deploy package with simple and straightforward setup

Servicing made easy

+ Extensive site Health and Maintenance toolset
+ Advanced instruments
+ Tasks supported by self-monitoring
+ Viable by design = Long-term labor costs savings

LUXRIOT EVO

Fool-Proof Dedicated Applications

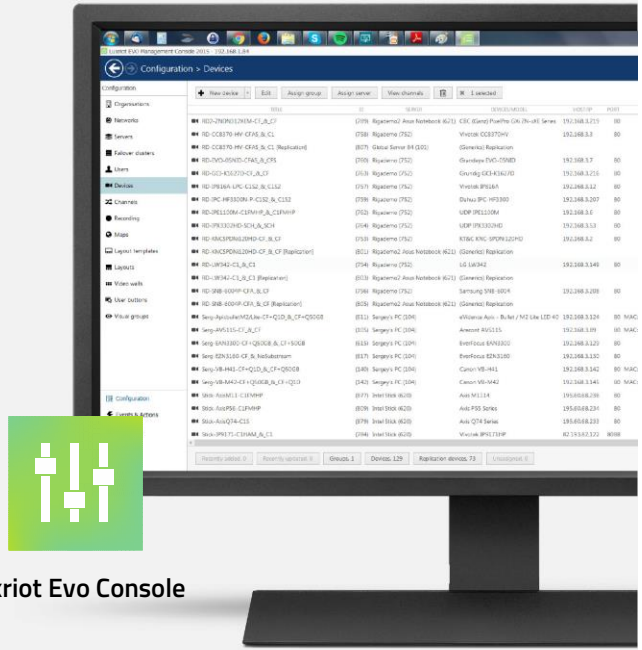


Luxriot Evo Monitor

Luxriot Evo provides **operators** with intuitive **Monitoring** application.

Ultralight **Console** is dedicated to support **engineers** and administrators with **advanced system management** capabilities.

Maintenance tasks supported by a self-monitoring **Watchdog** app.



Luxriot Evo Console

Common request expressed — existing system **reutilization**

- Unification – multiple **dispersed systems** in operation
- Legacy cameras and devices no longer supported
- EOL system / **exhausted technologies** but capable hardware

LUXRIOT EVO

Open platform for consistent support

Luxriot Evo provides
a **long-life consistent support**
for existing + legacy devices

Ensuring **extended lifecycles**
for your installations

+ Independent open platform – Luxriot Evo is not limited to specific hardware and software options
+ Focus on implementing advanced capabilities via native driver support
+ Extensive ONVIF protocols and features

ONVIF®

You can get the most of your hardware

LUXRIOT EVO

64 bit full performance

Get the most out of your servers and workstations

FRESH 64-BIT AND LOW-LEVEL OPTIMIZED CODEBASE → MORE DEVICES PER SERVER → LOW HARDWARE FOOTPRINT

LUXRIOT EVO

Fresh and user friendly UI

Limit expenditures

+ by reducing operator overload

+ by blending scattered video and security

+ into a single intuitive interface

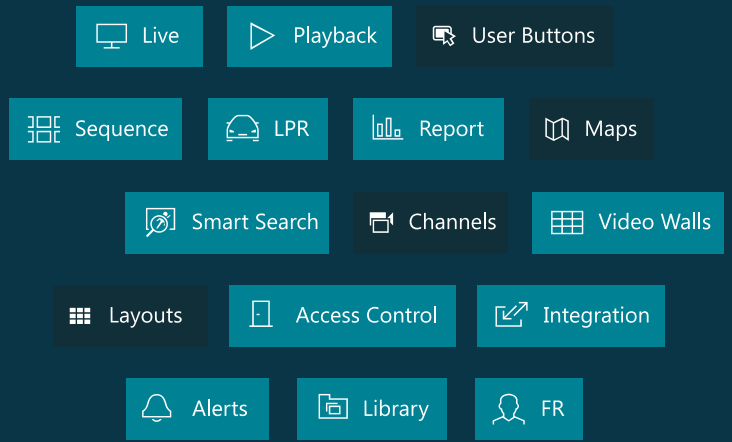
+ to simplify and unify operations

Intuitive and comfortable to operate

LUXRIOT EVO

Capabilities for better UX

+ Smart video and event notifications
+ ’Portals’ for people and objects tracking
+ Easy heatmaps and reports
+ Advanced forensic: on events, motion, FR and LPR databases, or VCA, or rapid and efficient video sequencing search without any metadata



ONE SIZE FITS ALL. GREAT FOR SOCKS. BAD FOR SECURITY

LUXRIOT EVO

Flexible

Tailored Solution

- Customer-Vendor direct contact
- No-Legacy Codebase
- Follower Advantage
- Extensive UI customization toolset

Fast & Easy to Adapt

LUXRIOT EVO

Advanced Alarm and Action Manager

Customizable automated scenario engine

- By schedule
- By sequence of events
- By the list of events
- Delay alarm

+ Interactive Maps **+ User Buttons** **+ Software Counters**

LUXRIOT EVO

Expert archive management

Refined with a full set of advanced enterprise capabilities

+ Long-term expertise with critical applications
+ Zero-to-no-time system reaction
+ No service disruption
+ Continuous proactive status monitoring and **centralized failover management**

LUXRIOT EVO

Expert archive management

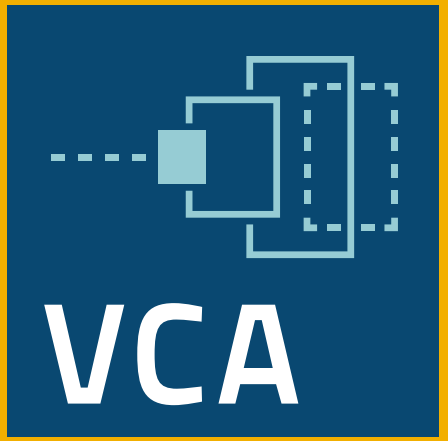
+ Multistream video recording
+ Extras: audio, motion, metadata, bookmarks, POS text overlay
+ Edge recordings download
+ Archive Replication ensures data safety with advanced mirror recording and scheduled transfers
+ Encryption makes each storage volume protected by user-provided passwords
+ Enhanced security and faster archives with Proprietary format
+ Backup and export in common formats and built-in watermark checks
+ Optional object motion-based privacy masking

LUXRIOT EVO

Complete A.I. extensions

Face Recognition

License Plate Recognition

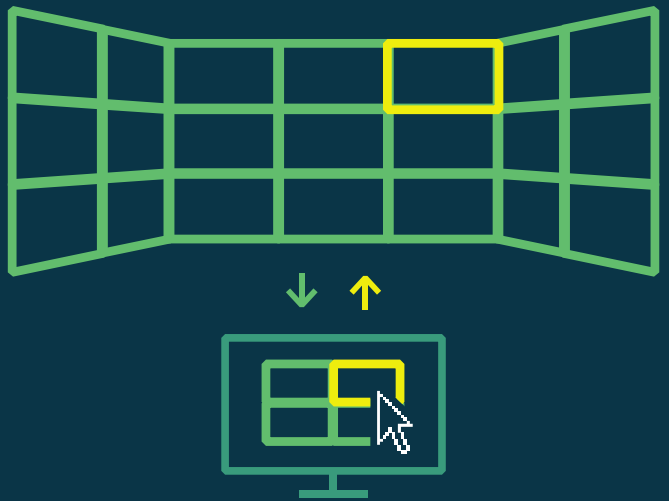


Video Content Analytics

LUXRIOT EVO

Video Wall

+ Custom and Shared Layouts
+ Portals and channel shortcuts for easily people and objects tracking
+ Create and manage a complex control room video wall environment
+ No need for extra proxy or middleware with Luxriot Evo Global



LUXRIOT EVO
